

M+S Hydraulic PLC

Statement on Mercury, Asbestos, Hexavalent chromium

January/2024

Mercury

Mercury is a naturally occurring element that can be found in materials and chemicals at trace levels. M+S Hydraulic PLC and its subsidiaries hereby declare that all products, accessories and spare parts we produce and sell are free from intentionally added mercury and mercury compounds.

We are compliant with the EU Regulation 2017/852 on mercury, the Minamata Convention and EU Regulation 1257/2013 on ship recycling.

Asbestos

All the products, accessories and spare parts produced and supplied on the market by M+S Hydraulic PLC and its subsidiaries as well as substances used in our internal production processes are asbestos free and comply with Regulation (EC) No.1907/2006 of the EU Parliament and Council of 18th December, 2006 concerning REACH Regulation and with the SOLAS Chapter II-I Regulation 3-5, New Installation of Asbestos.

Hexavalent Chromium

Hexavalent Chromium is a recognized toxic substance, the use of which is regulated by a variety of laws. These laws include, but are not limited to, REACH Regulation No 1907/2006, EU RoHS Directive 2011/65/EU.

M+S Hydraulic PLC and its subsidiaries hereby declare that all products, accessories and spare parts we produce and sell are free from intentionally hexavalent chromium substances.
